In this rugged account of a rugged profession, Matthew Desmond explores the heart and soul of the wildland firefighter. Having joined a firecrew in Northern Arizona as a young man, Desmond relates his experiences with intimate knowledge and native ease, adroitly balancing emotion with analysis and action with insight. On the Fireline shows that these firefighters aren't the adrenaline junkies or romantic heroes as they're so often portrayed. An immersion into a dangerous world, On the Fireline is also a sophisticated analysis of a high-risk profession—and a captivating read. "Gripping . . . a masterful account of how young men are able to face down wildfire, and why they volunteer for such an enterprise in the first place."—David Grazian, *Sociological Forum* "Along with the risks and sorrow, Desmond also presents the humor and camaraderie of ordinary men performing extraordinary tasks. . . . A good complement to Norman Maclean's *Young Men and Fire*. Recommended."—*Library Journal*

In 1985, desiring a meaningful, high-paced career in public service, Rachel Wentz left her university studies to become a firefighter/paramedic. Only the eighth woman hired by the Orlando Fire Department, a highly competitive department steeped in tradition, Wentz excelled, completing an AS in Fire Science, a master's in public administration, and numerous specialized training courses to prepare her for an administrative position within the department. Wentz spent eleven years with OFD, experiencing a career that was every bit as exciting and challenging as she had sought. A moving, candid, and eloquent memoir, *Let Burn* recounts her experiences as a firefighter/paramedic, during which time she witnessed aspects of life and death few people are privy to, experiences that shaped her as a professional and as a person. From the rigorous demands of training to the extraordinary calls Wentz responded to, *Let Burn* details the gratifying aspects of the field, but also demonstrates the precarious nature of the job: a heated altercation at the scene of an industrial fire leads to Wentz losing almost everything she's worked for and the dramatic end of a storied career. In vivid detail, *Let Burn* provides a firsthand glimpse into the hidden world of firefighting and emergency medicine.

In his new book *Step Up and Lead*, Frank Viscuso--author, speaker, and career deputy chief--shares the secrets of effective fire service leadership, introduces the traits and skills essential for successful fire service leaders, and discusses the importance of customer service. Designed to help you reach the top of your profession, this new book is considered must-read material for anyone who is ready to step up and lead!

This version includes all 21 chapters of *Essentials of Fire Fighting*, 6th Edition and adds three chapters written and validated to meet the emergency medical and hazardous materials requirements of NFPA®

1001, 2013 Edition. Chapter 22 specifically addresses the Firefighter I and Firefighter II knowledge and skills requirements for the emergency medical care competencies identified in NFPA® 1001, 2013 Edition Chapter 4. Chapters 23 and 24 meet the First Responder Awareness and Operations Levels for Responders according to NFPA® 472: Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents, 2012 Edition and OSHA 1910.120. The chapters also provide validated content to meet Section 6.6, Mission-Specific Competencies: Product Control, of NFPA® 472. The hazardous materials information is adapted from the IFSTA Hazardous Materials for First Responders, 4th Edition.

Brannigan's Building Construction for the Fire Service, Fourth Edition is a must read for fire fighters, prospective fire fighters, and fire science students. This edition continues the Brannigan tradition of using plain language to describe technical information about different building types and their unique hazards. This text ensures that critical fire fighting information is easy-to-understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of Building Construction for the Fire Service was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters' lives. His passion for detail and extensive practical experience helped him to develop the most popular text on the market. His motto of: "Know your buildings," informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's Building Construction for the Fire Service, Fourth Edition co-author Glenn Corbett to learn more about this training program! Glenn discusses his relationship with the late Frank Brannigan, the dangers of heavy construction timber, occupancy specific hazards, and other areas of emphasis within the Fourth Edition.
