How can foreign language learning be developed in primary schools? In what ways can it be integrated into the primary classroom? Modern Languages in the Primary School tackles these questions, challenging current perceptions of primary modern languages, arguing that modern languages should be fully integrated into the primary curriculum, and looking at ways in which this can be achieved. The authors examine ways in which language-learning can be made a rich experience for all. They offer ideas on how to start language programmes in schools, or enhance those already in place. The book: - Features a 3-stage practical approach to teaching languages with different age groups in primary schools - Develops a coherent view of language learning and teaching - Refers to the KS2 Framework elements of oracy, literacy, intercultural understanding, knowledge about language and language learning strategies - Contains a chapter which offers a theoretical introduction to content and language integrated learning (CLIL) - Refers to the QTS Standards and offers a short guide to internet-based and multimedia resources This book is for Primary ITE students and experienced teachers who are taking on the Modern Language coordinator role or teaching modern languages in primary schools for the first time. Philip Hood is Course Director of the National SCITT Primary PGCE and Lecturer in Modern Languages Education at the University of Nottingham. Kristina Tobutt is a Primary teacher and Associate Consultant for Nottinghamshire LA.

This book is a practical, comprehensive tool for busy teachers or educators teaching English pronunciation. Brown puts pronunciation into perspective with other aspects of language, highlighting the importance of teaching pronunciation from the start. Applicable for both British and American pronunciation, this book is organized by aspects of pronunciation and includes a wealth of photocopiable worksheets to use in the classroom. The engaging exercises include rhymes, games, puzzles, narratives, and more, all designed to promote learner engagement and understanding. Each worksheet is accompanied by supplementary resources and guidance, including recommendations for modifying lessons for different English learner proficiency levels; instructions for the teacher and learners; correct or expected answers; and tips for teachers to extend and create their own exercises. The versatility and adaptability of this book make it a beneficial resource for teachers of ESL/EFL/EAL, as well as educational professionals who consult and oversee teacher trainer programs and courses in TESOL.

Specifically targeted towards the needs of a second language research audience, Second Language Research: Methodology and Design addresses basic issues related to research design, providing step-by-step instructions for how to carry out studies. This up-to-date text includes chapters that cover identifying research problems and questions; selecting elicitation measures; dealing with ethical issues related to data gathering; validity and reliability in research; research in second and foreign language classroom contexts; data description and coding; and data analysis. Also included is a chapter on the much needed and rarely addressed topic of writing up SLA research, giving concrete suggestions about preparing for publication. Principles of both qualitative and quantitative research are discussed in the context of design issues. Throughout the book, examples from applied linguistics, second language acquisition, and TESOL are provided. Helpful discussion and data-based skill-building exercises at the end of each chapter promote better understanding of the principles discussed. A glossary outlines the key terms in second language research. Second Language Research: Methodology and Design is an ideal textbook for introductory and advanced classes in second language research methods, as well as classes in related areas, for example, TESOL research methods.

This book presents papers from the International Conference on Integrating Engineering Education and Humanities for Global Intercultural Perspectives (IEEHGIP 2020), held on 25–27 March 2020. The conference brought together researchers and practitioners from various disciplines within engineering and humanities to offer a range of perspectives. Focusing on, but not limited to, Content and Language Integrated Learning (CLIL) in Russian education the book will appeal to a wide academic audience seeking ways to initiate positive changes in education.

Common Pronunciation Difficulties Observed among Native Arabic Speakers Learning to Speak English is about the linguistic qualities involved in teaching the science of phonetics. Pronunciation is a concept in English language teaching that has been long overlooked and undertaught. Nevertheless, its importance is the difference between being understood and considered literate or being misunderstood and illiterate.

This volume gives an up-to-date account of the language situation and social context in multilingual Hong Kong. After an in-depth, interpretive analysis of various language contact phenomena, it shows why it is such a tall order for Hongkongers to live up to the Special Administrative Region government's language policy goalpost, 'biliteracy and trilingualism'. A detailed contrastive analysis between Cantonese and (a) English, (b) Modern Written Chinese, and (c) Putonghua helps explain the nature of the linguistic and acquisitional challenges involved. Economic forces and sociopolitical realities helped shape the 'mother tongue education' or 'dual MoI streaming' policy since September 1998. The book provides a critical review of the significant milestones and key policy documents from the early 1990s, and outlines the concerns of stakeholders at the receiving end. Another MoI debate concerns the feasibility and desirability of teaching Chinese in Putonghua (TCP). Based on a critical review of the TCP literature and recent psycholinguistic and neuroscience research, the language-in-education policy implications are discussed, followed by a few recommendations. Hongkongers of South Asian descent saw their life chances curtailed as a result of the post-1997 changes in the language requirements for gaining access to civil service positions and higher education. Based on a study of 15 South Asian undergraduate students' prior language learning experiences, recommendations are made to help redress that social inequity problem.

In this vibrant second edition, the authors have drawn from their own multiple years of teaching and from the knowledge and ideas of 50 linguists and ESL teachers who specialize in particular languages. New to this edition is Part I, an entire section on English spelling as a morphophonemic system. Here, Nilsen and Nilsen clearly explain concepts and patterns of English spelling, pronunciation, and meaning to ease the process of learning English for non-native studentsas well as their teachers. In addition, the authors provide sample activities that creatively and effectively engage students in grasping a particular concept, and include illustrative examples that show English is a systemic language. In Part II, the authors provide extensive lists of both vowel and consonant contrasts, each with phonetic diagrams and descriptions, minimal pairs (both isolated and in sentences), and specific languages for which the contrast may be problematic. These valuable examples help students hear and produce pronunciation differences that are important in English and bring their pronunciation closer to that of native English speakers. Both prospective and practicing teachers will appreciate the flexibility and freedom afforded by these well-designed materials.

Renowned picture book creator Jeanette Winter tells the story of a young girl in Afghanistan who attends a secret school for girls. Young Nasreen has not spoken a word to anyone since her parents disappeared. In despair, her grandmother risks everything to enroll Nasreen in a secret school for girls. Will a devoted teacher, a new friend, and the worlds she discovers in books be enough to draw Nasreen out of her shell of sadness? Based on a true story from Afghanistan, this inspiring book will touch readers deeply as it affirms both the life-changing power of education and the healing power of love.

This book aims to support and empower frontline ELT teachers in implementing a task-based approach systematically without losing sight of the importance of grammar teaching within the framework of tasks. Useful examples are provided to illustrate how grammar teaching can be conducted

through meaningful tasks in authentic contexts. The importance of viewing assessment as an integral part of the learning, teaching and assessment cycle is also discussed with practical suggestions on developing assessment tasks and assessment assessment criteria provided. Clear English Pronunciation provides students with the tools to effectively communicate in English without centring solely on native-speaker pronunciation models. The focus of the book is on individual pronunciation targets rather than a one-size-fits-all approach. Divided into four sections, each featuring detailed articulatory explanations, sample sentences, and recordings to help learners improve their pronunciation, this book: introduces the phenomenon of pronunciation as part of a broader communicative realm; explains and demonstrates the melody and rhythm of understandable and natural English pronunciation; supports students in identifying and practicing their own pronunciation issues. Supported by an interactive companion website which features recordings and expanded explanations of key topics, Clear English Pronunciation is an essential textbook for international learners of English who want to improve their pronunciation skills in diverse social settings. https://www.universiteitleiden.nl/clearenglishpronunciation

"This course offers current and prospective teachers of English a comprehensive treatment of pronunciation pedagogy, drawing on both current theory and practice. The text provides: - an overview of teaching issues from the perspective of different methodologies and second language acquisition research - innovative teaching techniques - a thorough grounding in the sound system of North American English - insight into how this sound system intersects with spelling, morphology, listening, and discourse - diagnostic tools and assessment measures - suggestions for syllabus design. Discussion questions and exercises encourage teachers to draw on their personal language learning/teaching experience as they assimilate the contents of each chapter. A training cassette offers practice in assessing learners' pronunciation"--Publishers's website.

Pronunciation Games is a photocopiable resource book for use with students of elementary to proficiency level.
The book contains contributions from practitioners and theoreticians who explore the pronunciation of English from various perspectives: phonetic, phonological, psycholinguistic and sociolinguistic. In accordance with the unifying theme of the volume, individual contributions investigate the characteristics of a foreign accent, its production and perception, study the development of methods and techniques in pronunciation teaching, evaluate their use in classroom materials and in the classroom itself, and investigate the conditions for second language learning and teaching from the perspective of learners and teachers. The book offers a unique combination of a scholarly research with practical applications, inspired over the years by the work of Professor Włodzimierz Sobkowiak, who has researched pronunciation teaching and pioneered technology-oriented, corpus-based approaches to the study of English pronunciation in Poland.
